

Frelo MaxClean™ is a super strength product that derives its power from a blend of ionized silicates that contains no solvents or harsh chemicals and is not corrosive. It cleans and deodorizes in one step.

Use for all purpose degreasing: oil and gas spills, oil dams, tar and asphalt removal, driveway cleaning, fuel spills, engine cleaning, spot removal, carpet cleaning and many other tough cleaning jobs. Use this product where a tough solvent or cleaner is needed and environmentally safe products and waste are demanded.

Frelo MaxClean™ renders waste and residue environmentally harmless and safe for normal disposal.

Can be used full strength or diluted with water per application.

On concrete, engines and hard surfaces, spray it on and let it dry. Spray off with water or air hose.

On fabrics, spray it on and let it dry. Vacuum or steam clean.

On residential and commercial vent-a-hoods.

The National Fire Protection Association recommends grease hoods and ducts be cleaned at least twice year. This will reduce the risk of kitchen fires and help improve the ventilation.

in the food industry!***

FRELO MaxClean™ Cleaner-Degreaser

Frelo MaxClean™ is a revolutionary new degreasing compound made with 100% natural ingredients. Unlike most other products on the market, it is non-toxic, non-hazardous, non-corrosive, non-flammable, odorless and planet friendly.

Frelo MaxClean™ has had worldwide use for over 10 years and has been tested by independent laboratories and major universities for public use.

Frelo MaxClean™ is:

- Odorless
- Non-Combustible
- Non-toxic
- Colorless
- Non-Corrosive
- Non-Conductive
- Non-Flammable
- Non-Hazardous
- Non-Allergenic
- Stable above 100° F
- Meets Food Chemicals Codex Specs

Frelo MaxClean™ is unique in its matrix as it actually breaks down hydrocarbon molecules leaving a harmless organic silicate material as a by-product. It can be used on all types of petroleum products and related materials.

Frelo MaxClean™ is a non-hazardous, environmentally friendly product.

The surfactants in Frelo MaxClean™ meet EU, Canadian and EPA standards for biodegradability.
